Certification of Actuarial Valuation

Ladies and Gentlemen:

This report summarizes the actuarial valuation results of the El Paso County Retirement Plan as of January 1, 2007 performed by Buck Consultants, an ACS company.

The actuarial valuation is based on audited financial and member data provided by the Retirement Plan Administrator and summarized in this report. The benefits considered are those delineated in the plan as amended and restated effective January 1, 2002.

All costs, liabilities and other factors under the plan were determined in accordance with generally accepted actuarial principles and procedures, using an actuarial cost method which we believe is reasonable. This report fully and fairly discloses the actuarial position of the plan.

In our opinion, the actuarial assumptions used are reasonable, taking into account the experience of the plan and reasonable expectations, and represent our best estimate of the anticipated experience under the plan. A summary of the actuarial assumptions and methods used in this actuarial valuation are shown in Section 4.3 beginning on page 28.

We are available to answer any questions on the material contained in this report, or to provide explanations to further details as may be appropriate.

Respectfully submitted,

BUCK CONSULTANTS, AN ACS COMPANY

David H. Slisinsky, A.S.A., E.A., M.A.A.A.
Principal & Consulting Actuary

Douglas J. Fiddler, A.S.A., E.A., M.A.A.A.
Senior Consultant, Actuary

PURPOSE AND HIGHLIGHTS

The main purposes of this report are:

1. To determine if the Board's funding policy for the Retirement Plan is being met considering current assets and the current employer and member contribution rates;
2. To review the current funded status of the plan; and
3. To compare actual and expected experience under the plan during 2006.

The 2007 actuarial valuation is based upon the plan provisions as of January 1, 2007; as described in Section 4.2. The actuarial methods and assumptions are described in Section 4.3.

Highlights from the current and prior valuations are:

1. A contribution rate of 6% of salary by both the participating employers and members in 2007 will not be sufficient to fund the normal cost and amortize the unfunded actuarial accrued liability over 30 years from the valuation date. The total actuarially required contribution necessary to fund the plan's benefits under the Board's funding policy for 2007 is 13.8% of salary.
2. The market value of assets was sufficient to provide for 112.3% of the actuarial present value of accumulated plan benefits as of January 1, 2007 as compared with 111.7% as of January 1, 2006.
3. Actuarial gains were experienced in 2006 from asset and liability sources, resulting in a net actuarial gain which decreased the unfunded actuarial accrued liability by \$9,710,945. The net gain from liability sources of \$5,313,861 was primarily due to gains caused by fewer retirements than anticipated, more terminations than anticipated and salary increases lower than expected. The rate of return on Actuarial Value of Assets of 9.9% in 2006 was higher than the 8% assumed investment return rate, resulting in the gain from asset sources of \$4,397,084.
4. Based on an analysis of the plan's experience from 2001 through 2005, several assumption changes were recommended to the Retirement Board in 2006, which adopted these changes effective for the plan year beginning January 1, 2007. The net impact of these changes in actuarial assumptions was an increase in the unfunded actuarial accrued liability of \$9,311,777.

SUMMARY OF PRINCIPAL VALUATION RESULTS

A summary of principal valuation results from the current valuation and the prior valuation follows. Any changes in actuarial assumptions, methods or plan provisions between the two valuations are described in the section titled "Effects of Changes."

	Actuarial Valuation as of		Change Between Years

(2) Includes 20 members on leave of absence.

(3) Excludes 20 members on leave of absence.

EFFECTS OF CHANGES

Changes in Actuarial Assumptions

Based on an analysis of the plan's experience from 2001 through 2005, several assumption changes were recommended to the board, which adopted these changes effective for the plan year beginning January 1, 2007. The net impact of these changes in actuarial assumptions was an increase in the unfunded actuarial accrued liability of \$9,311,777.

Changes in Plan Provisions

There were no changes in the plan provisions since the prior valuation.

Changes in Actuarial Methods

There were no changes in actuarial methods since the prior valuation.

SECTION 1: FUNDING RESULTS

- Section 1.1** A comparative summary of valuation results.
- Section 1.2** The actuarially required contribution.
- Section 1.3** The actuarial gain/(loss) during the preceding year.
- Section 1.4** The normal cost and unfunded actuarial accrued liability as of the current and preceding valuation dates.
- Section 1.5** The present value of projected plan benefits.
- Section 1.6** A ten-year projection of benefit payments.

5. Total Required Contribution (2. + 3. + 4.)	\$ 12,993,786	13.2%	\$ 14,219,416	13.8%	9.4%
6. Estimated Member Contribution ⁽¹⁾	\$ 5,924,720	6.0%	\$ 6,194,386	6.0%	4.6%
7. Required Employer Contribution (5. - 6.)	\$ 7,069,066	7.2%	\$ 8,025,030	7.8%	13.5%

⁽¹⁾ 6.0% of normal cost compensation for 2006 and 2007.

Section 1.2

Actuarially Required Contribution

The actuarially required contribution has been determined using the Entry Age Normal Actuarial Cost Method.

	January 1, 2006	January 1, 2007
1. Normal Cost	\$ 10,425,280	\$ 11,572,327
2. Amortization of Unfunded Actuarial Accrued Liability	2,136,856	\$ 2,174,439
3. Administrative Expenses	431,650	\$ 472,650
4. Total Required Contribution		
a. Amount (1. + 2. + 3.)	\$ 12,993,786	\$ 14,219,416
b. Percent of Normal Cost Payroll	13.2%	13.8%
5. Estimated Member Contribution ⁽¹⁾	\$ 5,924,720	\$ 6,194,386
6. Required Employer Contribution		
a. Amount (4.a. - 5.)	\$ 7,069,066	\$ 8,025,030
b. Percent of Normal Cost Payroll	7.2%	7.8%
7. Estimated Employer Contribution ⁽¹⁾	\$ 5,924,720	\$ 6,194,386
8. Amount of Total Contribution in Excess of Actuarially Required Contribution (7. - 6.a.)	\$ (1,144,346)	\$ (1,830,644)

⁽¹⁾ 6.0% of normal cost compensation for 2006 and 2007.

Section 1.3

Actuarial Gain/(Loss)

The actuarial gain/(loss) is comprised of both the liability gain/(loss) and the actuarial asset gain/(loss). Each of these represents the difference between the expected and actual values as of January 1, 2007.

1. Expected Actuarial Accrued Liability	
a. Actuarial Accrued Liability at January 1, 2006	\$ 270,180,072
b. Normal Cost and expected Administrative Expenses at January 1, 2006	10,856,930
c. Interest on a. + b. to End of Year	22,482,960
d. Benefit Payments and Administrative Expenses for Plan Year Ending December 31, 2006, with Interest to End of Year	14,159,704
e. Expected Actuarial Accrued Liability Before Changes (a. + b. + c. - d.)	289,360,258
f. Change in Actuarial Accrued Liability at January 1, 2007, Due to Change in Actuarial Assumptions	9,311,777
g. Change in Actuarial Accrued Liability at January 1, 2007, Due to Change in Plan Provisions	0
h. Expected Actuarial Accrued Liability at January 1, 2007 (e. + f. + g.)	\$ 298,672,035
2. Actuarial Accrued Liability at January 1, 2007	\$ 293,358,174
3. Liability Gain/(Loss) (1.h. - 2.)	\$ 5,313,861
4. Expected Actuarial Value of Assets	
a. Actuarial Value of Assets at January 1, 2006	\$ 234,660,873
b. Interest on a. to End of Year	18,772,870
c. Contributions Made for Plan Year Ending December 31, 2006	13,022,244
d. Interest on c. to End of Year	520,890
e. Benefit Payments and Administrative Expenses for Plan Year Ending December 31, 2006, with Interest to End of Year	14,159,704
f. Expected Actuarial Value of Assets at January 1, 2007 (a. + b. + c. + d. - e.)	\$ 252,817,173
5. Actuarial Value of Assets as of January 1, 2007	\$ 257,214,257
6. Actuarial Asset Gain/(Loss) (5. - 4.g.)	\$ 4,397,084
7. Actuarial Gain/(Loss) (3. + 6.)	\$ 9,710,945

Normal Cost and Unfunded Actuarial Accrued Liability

A. Normal Cost

The components of normal cost under the Plan's funding method are:

Component	January 1, 2006	January 1, 2007
Retirement Benefits	\$ 6,722,429	\$ 7,427,161
Withdrawal Benefits	2,978,754	3,579,123
Disability Benefits	522,904	359,435
Death Benefits	201,193	206,608
Total Normal Cost	\$ 10,425,280	\$ 11,572,327

B. Unfunded Actuarial Accrued Liability

The actuarial accrued liability is the present value of projected plan benefits allocated to past service by the actuarial funding method being used. The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over the actuarial value of assets.

Development of Actuarial Accrued Liability	January 1, 2006	January 1, 2007
1. Actuarial Accrued Liability		
a. Active Participants		
Retirement Benefits	\$ 138,345,960	\$ 152,510,848
Withdrawal Benefits	8,904,309	8,650,914
Disability Benefits	4,831,390	3,017,832
Death Benefits	1,878,333	1,973,803
Total	\$ 153,959,992	\$ 166,153,397
b. Participants with Deferred Benefits	7,021,090	8,348,167
c. Participants Receiving Benefits	109,198,990	118,856,610
d. Actuarial Accrued Liability (a. + b. +c.)	\$ 270,180,072	\$ 293,358,174
2. Actuarial Value of Assets	\$ 234,660,873	\$ 257,214,257
3. Unfunded Actuarial Accrued Liability (1.d.-2., not less than \$0)	\$ 35,519,199	\$ 36,143,917

Present Value of Projected Plan Benefits

The present value of projected benefits is the value of plan benefits using future earnings and service.

Present Value of Projected Benefits	January 1, 2006	January 1, 2007
1. Active Participants		
Retirement Benefits	\$ 184,808,817	\$ 205,327,782
Withdrawal Benefits	30,237,889	32,521,532
Disability Benefits	8,560,122	4,838,723
Death Benefits	3,319,566	4,134,985
Total	\$ 226,926,394	\$ 246,823,022
2. Participants with Deferred Benefits	7,021,090	8,348,167
3. Participants Receiving Benefits	109,198,990	118,856,610
4. Present Value of Projected Plan Benefits (1. + 2. + 3.)	\$ 343,146,474	\$ 374,027,799

Section 1.6

Ten-Year Projected Cash Flow (Retirement Benefit Payments)

January 1, 2007			
Plan Year Ending	Actives	Retirees ⁽¹⁾	Total
12/31/2007	\$ 1,435,960	\$ 11,878,338	\$ 13,314,298

2006	1,545,738

SECTION 2: ACCOUNTING RESULTS

Section 2.1 Information pertaining to the actuarial present value of accumulated plan benefits as required under FAS No. 35.

Section 2.2 Items required under GASB No. 25.

Section 2.1

FAS No. 35 Information

A. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of vested and nonvested accumulated plan benefits was computed on an ongoing plan basis in order to provide required information under Financial Accounting Standards Board Statement No. 35. In this calculation, a determination is made of all benefits earned by current participants as of the valuation date; the actuarial present value is then computed using demographic assumptions and an assumed interest rate. Assumptions regarding future salary and Social Security increases and accrual of future benefit service are not necessary for this purpose.

Accumulated Plan Benefits	January 1, 2006	January 1, 2007
Vested Benefits		
• Active Participants	\$ 88,447,393	\$ 105,398,825
• Participants with Deferred Benefits	7,021,090	8,348,167
• Participants Receiving Benefits	109,198,990	118,856,610
Total Vested Benefits	\$ 204,667,473	\$ 232,603,602
Nonvested Benefits	10,844,922	\$ 13,028,089
Total Accumulated Plan Benefits	\$ 215,512,395	\$ 245,631,691
Assumed Rate of Interest	8.0%	8.0%
Market Value of Assets Available for Benefits	\$ 240,733,254	\$ 275,820,902
Funded Ratio	111.7%	112.3%
Change in Accumulated Plan Benefits Due to:		
• Assumption Changes	\$ 0	\$ 16,080,188
• Plan Provision Changes	\$ 0	\$ 0
Number of Members		
Vested Members		
• Active Participants	1,313	1,255
• Participants with Deferred Benefits	250	281
• Participants Receiving Benefits	813	859
Total Vested Members	2,376	2,395
Nonvested Members	956	1,101
Total Members	3,332	3,496

Section 2.1

B. Statement of Changes in Accumulated Plan Benefits

A statement of changes in the actuarial present value of accumulated plan benefits (FAS No. 35 basis) follows. This statement shows the effect of certain events on the actuarial present value shown on the previous page.

Actuarial Present Value of Accumulated Plan Benefits as of January 1, 2006	\$ 215,512,395
Increase/(Decrease) During Year Attributable to:	
• Normal Cost	\$ 10,728,567
• Benefits Paid	(13,274,646)
• Increase for interest due to decrease in discount period	17,578,506
• Plan Amendments	0
• Assumption Changes	16,080,188
• (Gains)/Losses	(993,319)
Net Increase/(Decrease)	\$ 30,119,296
Actuarial Present Value of Accumulated Plan Benefits as of January 1, 2007	\$ 245,631,691

The benefits valued include all benefits -- retirement, preretirement death and vested termination -- payable from the Plan for employee service prior to the valuation date. Benefits are assumed to accrue/(accumulate) in accordance with the plan provisions.

GASB No. 25 Information

Supplementary Schedules

The GASB has issued a statement; Financial Reporting for Defined Benefit and Note Disclosures for Defined Contribution Plans (GASB Statement No. 25). This standard became effective for periods beginning after June 15, 1996, and requires funding status to be measured based upon the actuarial funding method adopted by the El Paso County Board of Retirement. The method adopted is the Entry Age Normal Cost Method. The target value of assets is equal to the Actuarial Accrued Liability (AAL). The Actuarial Value of Assets was determined using techniques that smooth the effects of short-term volatility in the Market Value of investments over a five-year period. The actual value of assets is the Market Value. This new GASB standard supersedes GASB Statement No. 5 in its entirety.

A. Schedule of Funding Progress

The GASB Statement No. 25 liabilities and assets resulting from the last eight actuarial valuations are as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b-a)/c]
01/01/2000	\$164,150,523	\$ 155,629,902	\$ (8,520,621)	105.5%	\$ 76,887,185	0.0%
01/01/2001	\$182,231,496	\$ 173,320,947	\$ (8,910,550)	105.1%	\$ 80,468,981	0.0%
01/01/2002	\$194,589,207	\$ 193,721,675	\$ (867,532)	100.4%	\$ 85,260,314	0.0%
01/01/2003	\$192,439,607	\$ 212,239,372	\$ 19,799,765	90.7%	\$ 89,629,062	22.1%
01/01/2004	\$207,538,410	\$ 230,926,211	\$ 23,387,801	89.9%	\$ 91,978,099	25.4%
01/01/2005	\$219,697,172	\$249,693,945	\$29,996,773	88.0%	\$ 92,757,865	32.3%
01/01/2006	\$234,660,873	\$270,180,072	\$35,519,199	86.9%	\$ 98,915,975	35.9%
01/01/2007	\$257,214,257	\$ 293,358,174	\$ 36,143,917	87.7%	\$ 103,402,651	35.0%

B. Schedule of Employer Contributions

The GASB Statement No. 25 required contributions and actual percentages contributed over the last eight years are as follows:

Schedule of Employer Contributions

Year Ended December 31	Annual Required Contribution ⁽¹⁾	Percentage Contributed
1999	\$ 4,081,973	107.0%
2000	\$ 3,982,444	116.3%
2001	\$ 4,336,783	112.9%
2002	\$ 4,225,002	125.5%
2003	\$ 5,587,954	98.9%
2004	\$ 5,936,214	92.5%
2005	\$ 6,393,770	89.1%
2006	\$ 7,069,066	87.1%

⁽¹⁾ Beginning of year.

C. Actuarial Assumptions, Method and Additional Information

Valuation Date	January 1, 2007
Actuarial Cost Method	Entry Age
Amortization Method	Level Percent Open
Remaining amortization period	30 years
Asset valuation method	Five-year smoothed market
Actuarial assumptions:	
Investment rate of return*	8.0%
Projected salary increases*	4.5 – 11.6%
*Includes inflation at	3.5%
Cost-of-living adjustments	None

SECTION 3: PLAN ASSETS

This section presents information regarding plan assets as reported by the plan administrator or the auditor. The plan assets represent the portion of total plan liabilities which has been funded as of the valuation date.

Section 3.1 Summary of Market Value of Assets.

Section 3.2 Reconciliation of Assets.

Section 3.3 Actuarial Value of Plan Assets as of January 1, 2007.

Section 3.4 Average Annual Rates of Investment Return.

Section 3.1

Summary of Assets

Asset Category	Market Value as of December 31, 2005		Market Value as of December 31, 2006

* Includes change in Asset valuation method.

SECTION 4: BASIS OF VALUATION

This section presents and describes the basis of the valuation. The census of participants, actuarial basis and provisions of the Plan are the foundation of the valuation, since these are the present facts on which the projection of benefit payments will depend. The valuation is based on the premise that the Plan will continue in existence.

Section 4.1 The participant data used for the actuarial valuation.

Section 4.2 The plan provisions valued in the actuarial valuation.

Section 4.3 The actuarial funding method, procedures and actuarial assumptions.

Section 4.1

Summary of Plan Provisions ***El Paso County Retirement Plan***

Effective Date and Plan Year

Originally effective September 1, 1967; the plan was last amended and restated effective January 1, 1998, and further amended by Amendment No. 2 effective January 1, 2000. The plan year is January 1, through December 31.

Administration

The plan is administered by the El Paso County Board of Retirement which consists of five voting members including the Treasurer of El Paso County, two non-elected employees of participating employers, and two registered electors of El Paso County appointed by the Board of County Commissioners.

Type of Plan

A self-administered defined benefit pension plan.

Employers Included

El Paso County, Colorado, El Paso County Health Department, Pikes Peak Library District, Office of the 4th Judicial District, El Paso County Board of Retirement.

Employees Included

A Covered Employee is any elected or appointed officer or any person employed by the employer who is defined as a full-time employee or a job-share employee by the employer. A Covered Employee participates in the plan on the first date of employment.

Service

Credited Service

Credited Service is the sum of Past Service, Membership Service and Purchased Service and is used in determining the amount of pension benefits and benefit eligibility. Past Service and Membership Service are periods of employment before and after September 1, 1967, respectively, and are measured in years and fractions thereof. Past Service is limited to five years, and Purchased Service is also limited to 5 years and is subject to additional conditions.

Compensation

Total regular compensation excluding bonuses, extra pay, overtime, etc., but including any deferred compensation. The amount of compensation for plan purposes for any participant, who first became a participant on or after January 1, 1996, is limited in any year to a maximum of \$220,000 (as indexed).

Final Average Monthly Compensation

The average compensation of the highest paid 36 consecutive calendar months within the last 120 calendar months of Credited Service.

County Contributions

The County will contribute an amount that along with participant contributions will be sufficient to provide benefits provided by the plan and pay all administrative expenses of the plan. Such County contributions must at least match participant contributions.

Participant Contributions

Effective January 1, 1986, participants are required to make monthly contributions equal to 6% of earnings. The rate of interest credited on participant contributions after July 1, 2005 is 3% per year compounded annually, or such other rate as established by the Retirement Board.

Normal Form of Benefit

The Normal Form of Benefit provided by the plan is a 10-year certain and life annuity payable monthly.

Accrued Benefit

The benefit determined as for normal retirement payable at the member's normal retirement date considering current earnings and service.

Normal Retirement Benefit

Normal retirement date is the first of the month on or after attainment of age 62. The monthly benefit payable at normal retirement is equal to 2.22% times final average monthly compensation, times years of Credited Service. But such benefit will not be greater than 75% of the participant's final average monthly compensation and not less than \$25.00 per year of Credited Service.

Late Retirement Benefit

The benefit is equal to the Normal Retirement Benefit, recognizing Credited Service and increased compensation to postponed retirement date.

Special Early Retirement Benefit

An active participant may elect to retire with a special early benefit if the sum of his age and years of employment equals at least 75 upon termination of employment. The benefit will be equal to his accrued benefit unreduced for early payment.

Regular Early Retirement Benefit

An active or vested terminated participant who has five or more years of Credited Service may elect to retire on the first of any month after the attainment of age 55. The benefit will be equal to his accrued benefit reduced by .25% per month for each month by which his early retirement date precedes age 62.

Terminated Vested Benefit

A participant who terminates employment with five or more years of Credited Service before he is eligible to receive immediate retirement benefits may elect to receive either his accumulated contributions, in lieu of all other benefits, or his vested accrued benefit payable at his normal retirement date. The participant may also elect to receive a reduced benefit at an earlier commencement date.

A participant who terminates employment before becoming vested is entitled to a refund of his accumulated contributions with interest.

Disability Benefit

An active participant who becomes permanently and totally disabled under their employer's long-term disability insurance program, or Social Security disability, is entitled to receive a benefit payable at his normal retirement date. This benefit is based on his average monthly compensation for the calendar year prior to the calendar year in which disablement occurred and the Credited Service he would have accumulated to such retirement date. Payments will be made for ten years certain and life thereafter.

Death Benefit

Death of a Participant Prior to Benefit Commencement

In the event a Participant, either actively accruing service, disabled or terminated vested, dies before payments commence, the following benefits shall be paid:

If such Participant is not married at his death, there shall be paid the Beneficiary two times the Participant's accumulated contributions at the date of death.

If such Participant is married at his death, one of the following death benefits shall be payable to his spouse, at her sole option:

Two times the Participant's accumulated contributions at the date of death; or

A monthly benefit, payable for life, in an amount equal to 60% of the Participant's Accrued Benefit on his date of death, reduced if the spouse is more than five years younger than the participant. Such death benefit shall commence on the first day of the month coincident with or following the later of the date the Participant would have attained age 55 or date of death. If the member dies while in active service, on or after attainment of age 62 or attaining eligibility under the special early retirement provision, if earlier, the surviving spouse is eligible to receive a monthly benefit payable for life as if the member retired the day before death and elected the 100% joint and survivor annuity.

Death After Retirement

A lump sum death benefit of \$3,000 is payable to the participant's designated beneficiary. In addition, applicable benefits will be paid if the Participant has elected an option providing for payments to a beneficiary, or has elected the normal form of benefit and dies prior to having received benefits for 120 months, or prior to having received benefits equal to his total accumulated contributions as of the date of his retirement.

Optional Retirement Benefits

In lieu of the Normal Form of Benefit (10-year certain and life), a Participant may elect to receive an adjusted amount, payable for life only, or an amount payable as a 100% or 50% joint and survivor benefit. 100% and 50% joint and survivor benefits with benefits increases if beneficiary dies first are also available options.

Summary of Actuarial Methods, Procedures and Assumptions

A. Entry Age Actuarial Cost Method

Liabilities and contributions shown in this report are computed using the **Entry Age** actuarial method of funding.

Sometimes called a “funding method,” this is a particular technique used by actuaries for establishing the amount and incidence of the annual actuarial cost of pension plan benefits, or normal cost, and the related unfunded actuarial accrued liability. Ordinarily the annual contribution to the plan is comprised of (1) the normal cost and (2) an amortization payment on the unfunded actuarial accrued liability.

Under the Entry Age Actuarial Cost Method, the **Normal Cost** is computed as the level percentage of pay which, if paid from the earliest time each Member would have been eligible to join the plan if it then existed (thus, entry age) until his retirement or termination, would accumulate with interest at the rate assumed in the valuation to a fund sufficient to pay all benefits under the plan.

The normal cost for the Plan is determined by summing individual results for each active Member and determining an average normal cost rate by dividing the summed individual normal costs by the total payroll of Members before assumed retirement age.

The **Actuarial Accrued Liability** under this method at any point in time is the theoretical amount of the fund that would have accumulated had annual contributions equal to the normal cost been made in prior years (it does not represent the liability for benefits accrued to the valuation date.) The **Unfunded Actuarial Accrued Liability** is the excess of the actuarial accrued liability over the actuarial value of plan assets actually on hand on the valuation date.

Under this method experience gains or losses, i.e. decreases or increases in accrued liabilities attributable to deviations in experience from the actuarial assumptions, adjust the unfunded actuarial accrued liability.

B. Asset Valuation Method

The actuarial value of assets is based on a five-year moving average of expected and market values determined as follows:

- at the beginning of each plan year, a preliminary expected actuarial asset value is calculated as the sum of the previous year’s actuarial value increased with a year’s interest at the plan valuation rate, plus net cash flow (including investment expenses) adjusted for interest (at the same rate) to the end of the previous plan year, plus interest (at the same rate) on the prior year’s unrecognized asset bases to the end of the previous plan year;
- the expected actuarial asset value is set equal to the preliminary expected actuarial value plus the unrecognized investment gains and losses as of the end of the previous plan year;
- the difference between the expected actuarial asset value and the market value is the investment gain or loss for the previous plan year;
- the final actuarial asset value is the preliminary value plus 20% of the investment gains and losses for each of the five previous plan years, but in no case more than 120% of the market value or less than 80% of the market value,

C. Valuation Procedures

No actuarial liability is included for members who terminated nonvested prior to the valuation date, except those due a refund of contributions.

The compensation amounts used in the projection of benefits and liabilities were January 1, 2007, rates of pay.

In computing accrued benefits, average earnings were determined using actual earnings histories supplied by El Paso County.

No benefits were projected to be greater than the dollar limitation required by the Internal Revenue Code Section 415 for governmental plans.

D. Changes in Plan Assumptions

The plan actuary, Buck Consultants, was commissioned by the Board to conduct an Experience Analysis of the assumptions of the plan. Generally, it is recommended that an analysis of the demographic assumptions of the plan be performed every four to six years. The last experience analysis was performed in 2001. Based on the results of the experience analysis, several assumption changes were recommended to the Board, which adopted these changes effective for the January 1, 2007 plan year. A summary of the new assumptions, as well as the old assumptions, can be found in Section E of this exhibit.

E. Actuarial Assumptions

Interest: 8.0% per annum, compounded annually, net of investment expenses.

Mortality: Sample rates are as follows:

Withdrawal rates are not applied after a member becomes eligible for retirement benefits.

Disability:

Disability rates are the rates at which active Plan members are expected to become disabled, and to be eligible for plan disability retirement. Sample rates are as follows:

Old Assumptions

New Assumptions

Per 100 Members	
Age	Disablement
20	0.11
25	0.12

Post-Disability Mortality:

Participants who are receiving disability retirement benefits are expected to have a higher mortality risk than other retirees or active plan members. The disability mortality is based on the 1983 Railroad Board Disabled Mortality Table. Sample rates are as follows:

Old Assumptions

New Assumptions

Per 100 Members	
Age	Disabled Mortality
20	1.01
25	1.68
30	1.06

Section 4.3

Salary Increase:

Anticipated salary increases include both inflationary and merit increases. Merit increases are anticipated to be greater at younger ages. A composite salary increase assumption based on age is, therefore, applied. Sample rates are as follows:

Old Assumptions

New Assumptions

Attained Age	Percentage Increase at Attained Age			Ratio of Salary at Age 65 to Salary at Attained Age
	Merit	Inflation	Total	
20	8.1%	3.5%	11.6%	22.84
25	6.5	3.5	10.0	13.42
30	4.4	3.5	7.9	8.60
35	3.5	3.5	7.0	5.87
40	2.9	3.5	6.4	4.19
45	2.7	3.5	6.2	3.08
50	2.5	3.5	6.0	2.28
55	2.3	3.5	5.8	1.71
60	2.0	3.5	5.5	1.29
64	1.2	3.5	4.7	1.05

Same

Salary Limit Increase:

3.5% per year, rounded down to nearest \$10,000.

Section 4.3

Retirement Rates: According to the following table based on eligibility for reduced or unreduced retirement benefits.

Old Assumptions

Per 100 Members

Expense Loading: Loading for administrative expenses is based on an estimate for the year, provided by the Retirement Board. For 2007, the administrative expense loading is \$472,650.

Percent Married: 85% of all members are assumed to have eligible spouses.

Age Difference: A husband is assumed to be three years older than his wife.

Age for Commencement of Deferred Vested Benefits: Age 62.

Amortization of the Unfunded Actuarial Accrued Liability The unfunded actuarial accrued liability is amortized as a level percent of payroll over an open amortization period of 30 years. Payroll is assumed to increase 3.5% per year for this purpose.
